All New Rubber Snap-In VDO REDI-Sensor, SE10001HPR, Available Now!

- Press clip assembly by hand, without screws or nuts
- Enhanced rubber snap-in valve designed to match OE appearance and installation
- Same application coverage and functionality as the popular and proven metal clamp-in SE10001HP

As with all products in the VDO REDI-Sensor line, this new sensor continues to offer the following features that tire and automotive service centers rely on:

- Ready out of the box!
- Pre-programmed and designed to follow OE vehicle relearn procedures - never any added sensor programming or cloning steps
- Works with all major TPMS scan tools
- Reduces inventory and eliminates service delays
- OE designed and validated
