

REDI-Sensor™

- Sensor batteries are not replaceable.
- If 1 sensor battery has failed, your service provider may recommend replacing all 4 sensors to save you time and money.

- Get maximum tire life
- Required by law in all cars and light trucks since 2008

- Tire Pressure Monitoring Systems (TPMS) help save gas and save lives
- Helps maintain safe handling and minimize potential of hydroplaning.
- Under-inflated tires can lower gas mileage by 0.3% for every 1 PSI drop in pressure of all four tires

- The TPMS warning light tells you at least one of your tires is dangerously low in air

**Save time and money with REDI-Sensor™**

REDI-Sensor™ is compatible with advanced TPMS technology such as pressure by position and tire fill alert systems.

## REDI-Sensor™

### The Next Generation

Trusted for over a decade

- Covers model years 2005-2021 and beyond
- Ready right out of the box
- One piece installation
- No added sensor programming or cloning steps
- Pre-programmed and designed to follow existing OE vehicle relearn procedures
- OE matching design
