

We care about safety and quality

Not just a TPMS sensor, but a complete program

- REDI-Sensor™ has been developed by AUMOVIO, one of the industry's leading TPMS suppliers to OEMs
- We are a pioneer in developing TPMS technology and own over 500 TPMS technology patents worldwide
- Four REDI-Sensor Multi-application TPMS Sensors replace over 300+ OE sensors, with coverage exceeding 225 million VIO from 2002 to today
- Our online cataloging includes installation tips, and vehicle relearn instructions
- Backed by US-based technical support and in-person training opportunities

REDI-Sensor™ comes preloaded with protocols for multiple vehicles.

Save time and money with faster installs – while also eliminating the chance for upload errors in the shop.
